INDIAN ECONOMIC ASSOCIATION

**GOKUL
GLOBAL
UNIVERSITY**

Recognized Under Section 2(f) & 22 of UGC Act 1956

Siddhpur, Patan, Gujarat, (India)

The motto of the Digital India Mission is 'Power to Empower'. There are three core components to the Digital India initiative. They are digital infrastructure creation, digital delivery of services, and digital literacy.

The major objectives of this initiative are listed below

To provide high-speed internet in all gram panchayats. To provide easy access to Common Service Centre (CSC) in all the locality.

Digital India is an initiative that combines a large number of ideas and thoughts into a single, comprehensive vision so that each of them is seen as part of a larger goal.

The Digital India Programme also focuses on restructuring many existing schemes that can be implemented in a synchronized manner.

Digital India Mission is an initiative that encompasses plans to connect the rural areas of the country with high-speed internet networks. Public Internet Access Programme is one among the nine pillars of digital India. On the platform of digital adoption, India ranks amongst the top 2 countries globally and the digital economy of India is likely to cross \$1 trillion by the year 2023.

Reflecting the spirit and the changed dynamics of the new India, the institutions of governance and policy have to adapt to new challenges and must be built on the founding principles of the Constitution of India, the wealth of knowledge from our civilizational history and the present-day socio-cultural-economic contexts. The aspirations of India and its citizens require institutional reforms in governance and dynamic policy shifts that can seed and nurture unprecedented change. Reflecting the spirit and the changed dynamics of the new India, the institutions of governance and policy have to adapt to new challenges and must be built on the founding principles of the Constitution of India, the wealth of knowledge from our civilizational history and the present-day socio-cultural-economic contexts. The aspirations of India and its citizens require institutional reforms in governance and dynamic policy shifts that can seed and nurture unprecedented change.

Apart from the main topic, other important topics have also been kept in this international seminar on which papers will be presented in this seminar.

1. Digital India, Transforming India
2. Artificial intelligence technology
3. Intellectual property issues in digital era
4. Cyber laws relating to privacy and data collection
5. Impact of yoga on globalization
6. Innovative practices in commerce and Management in digital era
7. Transforming and initiating women entrepreneurship in digital India
8. Incubation and start-ups

Last Date for Submission of Papers (Full Paper along with 250 words of Abstract):
25th November 2023.

Last Date for Registration: 5th December 2023.

Best Research paper will be awarded with certificate of merit.

Timings of the Conference:

The Conference will start at **11.00 am** on 22 Decembar 2023 and will conclude by **4:00 pm.** on 23 December 2023.

About Siddhpur

Siddhpur is a sacred pilgrimage centre, around 103 km north of Ahmedabad. It is situated on the left bank of the River Saraswati, around 24 kms upstream of Anhilwad Patan, the old capital of Gujarat before Ahmedabad was founded in the first quarter of the fifteenth century. The town is a revered destination, flanked by temples, kunds, ashrams and other sacred structures. Around the 10th century, under the Solanki rulers, this town was at the pinnacle of prominence and glory. It derived its name from the great ruler of Gujarat, Siddhraj Jaisinh from the Solanki dynasty.

Raja Siddhraj built a magnificent temple dedicated to Lord Shiva called as the 'Rudra Mahalaya' in 12th century AD. The temple was an architectural wonder with a three-storied 'shikhara', 1600 pillars, 12 entrance doors, central 'mandapa' and porches on east, north and south and sanctum in west. Around the temple, there were 11 shrines of Rudra. The eastern gate was adorned with beautifully carved 'Toran', with a flight of steps

leading to the Saraswati River. The ornamentation of the temple was exuberant as shown by the elaborate and detailed carvings of the pillars and the beautiful Toran, which are the only remains of the temple today. Apart from that, there are only five Swayambhu Lord Shiva temples in India and all of them are in Siddhpur. They are the most important worship places during the Hindu month of Shravan.

Gokul Global University:

Gokul Global University established under the Gujarat Private Universities Act, 2009 (Gujarat Act No 8 of 2009) as amended by Gujarat Act No. 04 of 2018, is a UGC recognized University under section 2(f) and 22 of Act 1956 located in North Gujarat region of Gujarat state.
