DISSERTATION

Dissertation work will be carried out throughout the LL.M. studies. The Dissertation shall be prepared and submitted by the Candidate at the end of the year of LL.M. studies which shall be evaluated by the external faculties. There are 50 marks for the written work and 50 marks for viva-voce.

Dissertation Guidelines: All the LL.M. students are required to submit their dissertation in the area of their specialization, in consultation with the subject faculty with minimum 150 pages. After accepting the Dissertation, a Viva-Voce will be conducted. The main objectives of the dissertation component are to assess the research and writing skills of the students as well as to provide a platform for creative legal scholarship. Students are especially encouraged to think about career options. Hence, writing a dissertation is a significant exercise that helps in developing one's prospects for the same. These dissertations can be further refined and submitted for publication in scholarly journals or even serve as the basis for full-length dissertations in master's programs.

Topic selection: The Research Supervisors will ask students to submit their initial choice of topic on or before a date notified by the institute. Preparing an initial dissertation proposal in an

area of one's interest is a necessary step at this stage. This proposal should consist of a skeletal outline of the issues that the student intends to discuss as well as a preliminary list of references. Students should also feel free to consult scholars and practitioners from outside the University who may have experience and expertise in the chosen fields and the due date for submission of the dissertation proposal is on the date to be notified by the Institute, from time to time. Dissertation will not be accepted after the deadline. Plagiarism of more than 10% will not be accepted.

Preparatory tasks, format and length of dissertations: After the preliminary work, the onus is on the students to maintain regular contact with the respective faculty members. Supervisors may ask students to engage in several tasks such as preparing notes on the research problem, generating a survey of literature and making short presentations before faculty members from time to time. In particular, students should make full use of the library resources. It is always worthwhile to periodically show rough drafts to the supervisors. It is advisable for students to meet their supervisors at least once every week. The dissertation should be in the following format:

Cover Page	Introduction
Declaration by student	Research Methodology
Certificate by Research Supervisor	Hypothesis `
List of statutes,	Research Questions
cases,	Plan of Study
Abbreviations etc.	Conclusions and Suggestions

Course Objectives:

- Almost all the major dilemmas of criminal policy surface rather acutely in combating drug addiction and trafficking through the legal order.
- The issue of interaction between drug abuse and criminality is quite complex.
- At least three important questions have been recently identified as crucial for comparative research. First, to what extent drug dependence contributes to criminal behavior? Second, in what ways do criminal behavior patterns determine drug abuse? Third, are there any common factors which contribute to the determination of both drug abuse and criminal behavior?
