Feedback analysis and recommendations to act upon feedback (2022-2023)

Feedback from Student	Recommendation to competent Authority
It will be very helpful if, Professor suggests a specific book for each subject to self study and homework. Or should provide books/study material in hard copy incorporating the full syllabus.	It is recommended to add more E content on university websites and university institutes and central libraries. Further recommended faculty to create a useful and easy understandable study material so students can study themselves at home.
Tutorial and expert lecture should be more	It is recommended to add more tutorials and expert lectures so students can understand the course very briefly.
ICT should be used in the teaching learning process.	It is recommended that ICT should be used in the teaching learning process . More and more class rooms , seminar halls are required to be ICT enabled.
Practical/ Experiment Improvement	It is recommended to make provision to do more practical relevant courses.
Improve placement in civil engineering	It is recommended to promote placement activities on campus.
Some subjects are not taught by faculty.	It is recommended to increase student-faculty ratio so as no subject should be left without tutoring.
Subject are not choiceable	It is recommended to increase and give choice based options to students to study.
Interview preparation needed.	It is recommended to include a course focused on resume writing and interview preparation.

Feedback from Faculty member	Recommendation to competent Authority
For a few subjects the time framework of the syllabus during the semester is not enough.	It is recommended to review and do needful for time demanding subjects.
course should match with student future requirements.	While designing curriculum it is noted that the course should match with student future requirements.
The curriculum should be a balanced curriculum.	While designing curriculum, the weightage of a particular domain should be maintained appropriately.
Make provision for attending seminars and workshops or knowledge acquisition activities.	It is recommended to make provision for attending seminars and workshops or knowledge acquisition activities.

Feedback from Employer	Recommendation to competent Authority
It is required to make students industry ready.	It is recommended to include internship courses that students can opt and do in-house activities in industries.
More and more faculty should engage in further study to justify their academic positions.	It is recommended to make policies for staff to study on campus and outside campus.
Students should take maximum benefit of libraries and e-resources.	It is recommended to add at least an hour to sit in the library per day in the time table.
Practical legal cases study should be done.	Pick a real time cases and make practical solution in moock court.
Industrial and academic collaboration should be done.	It is recommended to make more MOUs with industries and universities.

Feedback from Alumina students	Recommendation to competent Authority
Requesting more placement activities.	It is recommended to organise a job fair or parallel placement activities twice a year.
Alumni meet from time to time.	It is recommended to organise an alumni meet once a year.
Add industry useful courses in the syllabus.	It is recommended to include courses that may be useful for industry.
There is a lack of communication between pass-out students.	It is recommended to make a registered group of alumina students so they can cooperate with each other in various modes.
Not sufficient professor in law stream for guidance	It is recommended to recruit enough teaching staff.
It is suggested to make an alumni students social media group.	It is recommended to create a social media account where alumni can join with each other.
Improvement is required in ICT based study.	It is recommended to add ICT enabled system in teaching process.
