

Action Taken report based on recommendation of various stakeholders. (2018-2023)

Feedback from Student	Recommendation to competent Authority	Action Taken
It will be very helpful if, Professor suggests a specific book for each subject to self study and homework. Or should provide books/study material in hard copy incorporating the full syllabus.	It is recommended to add more E content on university websites and university institutes and central libraries. Further recommended faculty to create a useful and easy understandable study material so students can study themselves at home.	The University has a portal by name ERP and there is a module in it with the name “E-content” where a faculty member could upload study material relevant to each course. The access to this module is given to the students so that they can download/read the study material from it.. The same is reflected on the website. The central library is equipped with PCs in which e-books and links to online resources are available. A large number of volumes of text books as well as reference books are available in the library and in the departmental library. There is a Delnet subscription to access a large number of journal, conference papers.
Tutorial and expert lecture should be more	It is recommended to add more tutorials and expert lectures so students can understand the course very briefly.	For incorporation of more tutorials in the curriculum, the syllabus is revised from time to time and more expert sessions are arranged. The problem is resolved.
ICT should be used in the teaching learning process.	It is recommended that ICT should be used in the teaching learning process . More and more class rooms , seminar halls are required to be ICT enabled.	Classrooms and seminar halls are ICT enabled and well connected to the internet.
Practical/ Experiment Improvement	It is recommended to make provision to do more practical relevant courses.	Wherever it is required, the syllabus is revised, more practicals are included and the problem is resolved.

Improve placement in civil engineering	It is recommended to promote placement activities on campus.	Placement cell is informed to arrange more and more placement drives. It is requested to invite more companies for campus placements..
Some subjects are not taught by faculty	It is recommended to increase student-faculty ratio so as no subject should be left without tutoring.	The HR and Establishment section is undertaking the process of recruitment of new faculties.
Subject are not choiceable	It is recommended to increase and give choice based options to students to study.	The provision is done for students to select the subject from the elective subject list. The university has implemented NEP 2020 and the students have the choice to select a subject from a bucket.
Interview preparation needed.	It is recommended to include a course focused on resume writing and interview preparation.	The Training & Placement cell is working on this and it is conducting the sessions for the preparation of the interview.

Feedback from Faculty member	Recommendation to competent Authority	Action Taken
For a few subjects the time framework of the syllabus during the semester is not enough.	It is recommended to review and do needful for time demanding subjects.	The syllabus is revised wherever needed and the problem is resolved.
course should match with student's future requirements.	While designing curriculum it is noted that the course should match with student's future requirements.	The recommendations from industry experts and experts from other universities are received and based on that, the syllabus is revised accordingly and the problem is resolved.
The curriculum should be a balanced curriculum.	While designing curriculum, the weightage of a particular domain should be maintained appropriately.	The curriculum seems balanced however necessary amendments have been done as per the requirements.
Make provision for attending seminars and workshops or knowledge acquisition activities.	It is recommended to make provision for attending seminars and workshops or knowledge acquisition activities.	The university had accepted the recommendations and agreed upon to allow the staff members to attend more academic events during a semester.

Feedback from Employer	Recommendation to competent Authority	Action Taken
It is required to make students industry ready.	It is recommended to include internship courses that students can opt and do in-house activities in industries.	The recommendations from the industrial experts are received, accepted and based on that the necessary amendments are made in the syllabus.
More and more faculty should engage in further study to justify their academic positions.	It is recommended to make policies for staff to study on campus and outside campus.	The university management is encouraging the faculty members to pursue their higher studies and the faculty members are doing it.
Students should take maximum benefit of libraries and e-resources.	It is recommended to add at least an hour to sit in the library per day in the time table.	The provision had been made to add an hour for the library in a timetable in a day so that students can take benefit of the library and the resources within it.
Practical legal cases study should be done.	Pick a real time case and make a practical solution in moot court.	The Faculty of Law has a Moot court and legal cases are often discussed to give practice to the students.
Industrial and academic collaboration should be done.	It is recommended to make more MOUs with industries and universities.	For the benefits of the students, the university is putting all its efforts to establish connections with organizations & industries by signing MoUs with them. The university is increasing these numbers year after year.

Feedback from Alumni students	Recommendation to competent Authority	Action Taken
Requesting more placement activities.	It is recommended to organise a job fair or parallel placement activities twice a year.	The job fair is organised and an invitation based placement activity is a continuous process at the campus. The frequency of the job fairs would be increased in the future.
Alumni meet from time to time.	It is recommended to organise an alumni meet once a year.	Alumni meet is conducted during annual convocation. More alumni meets shall be

		planned in the future at various places outside the campus.
Add industry useful courses in the syllabus.	It is recommended to include courses that may be useful for industry.	The recommendations from the industry experts and other university experts are received and based on that necessary amendments are made in the syllabus.
There is a lack of communication between pass-out students.	It is recommended to make a registered group of alumni students so they can cooperate with each other in various modes.	The alumni association of the university is working on the same.
Not sufficient professor in law stream for guidance.	It is recommended to recruit enough teaching staff.	Selection process is carried out by the HR and Establishment department and recruitment of new faculties is under process.
It is suggested to make an alumni students social media group.	It is recommended to create a social media account where alumni can join with each other.	The alumni association of the university is working on the same.
Improvement is required in ICT based study.	It is recommended to add an ICT enabled system in the teaching process.	Classrooms and seminar halls are ICT enabled and well connected to the internet.
