

EVENT REPORT -23-24

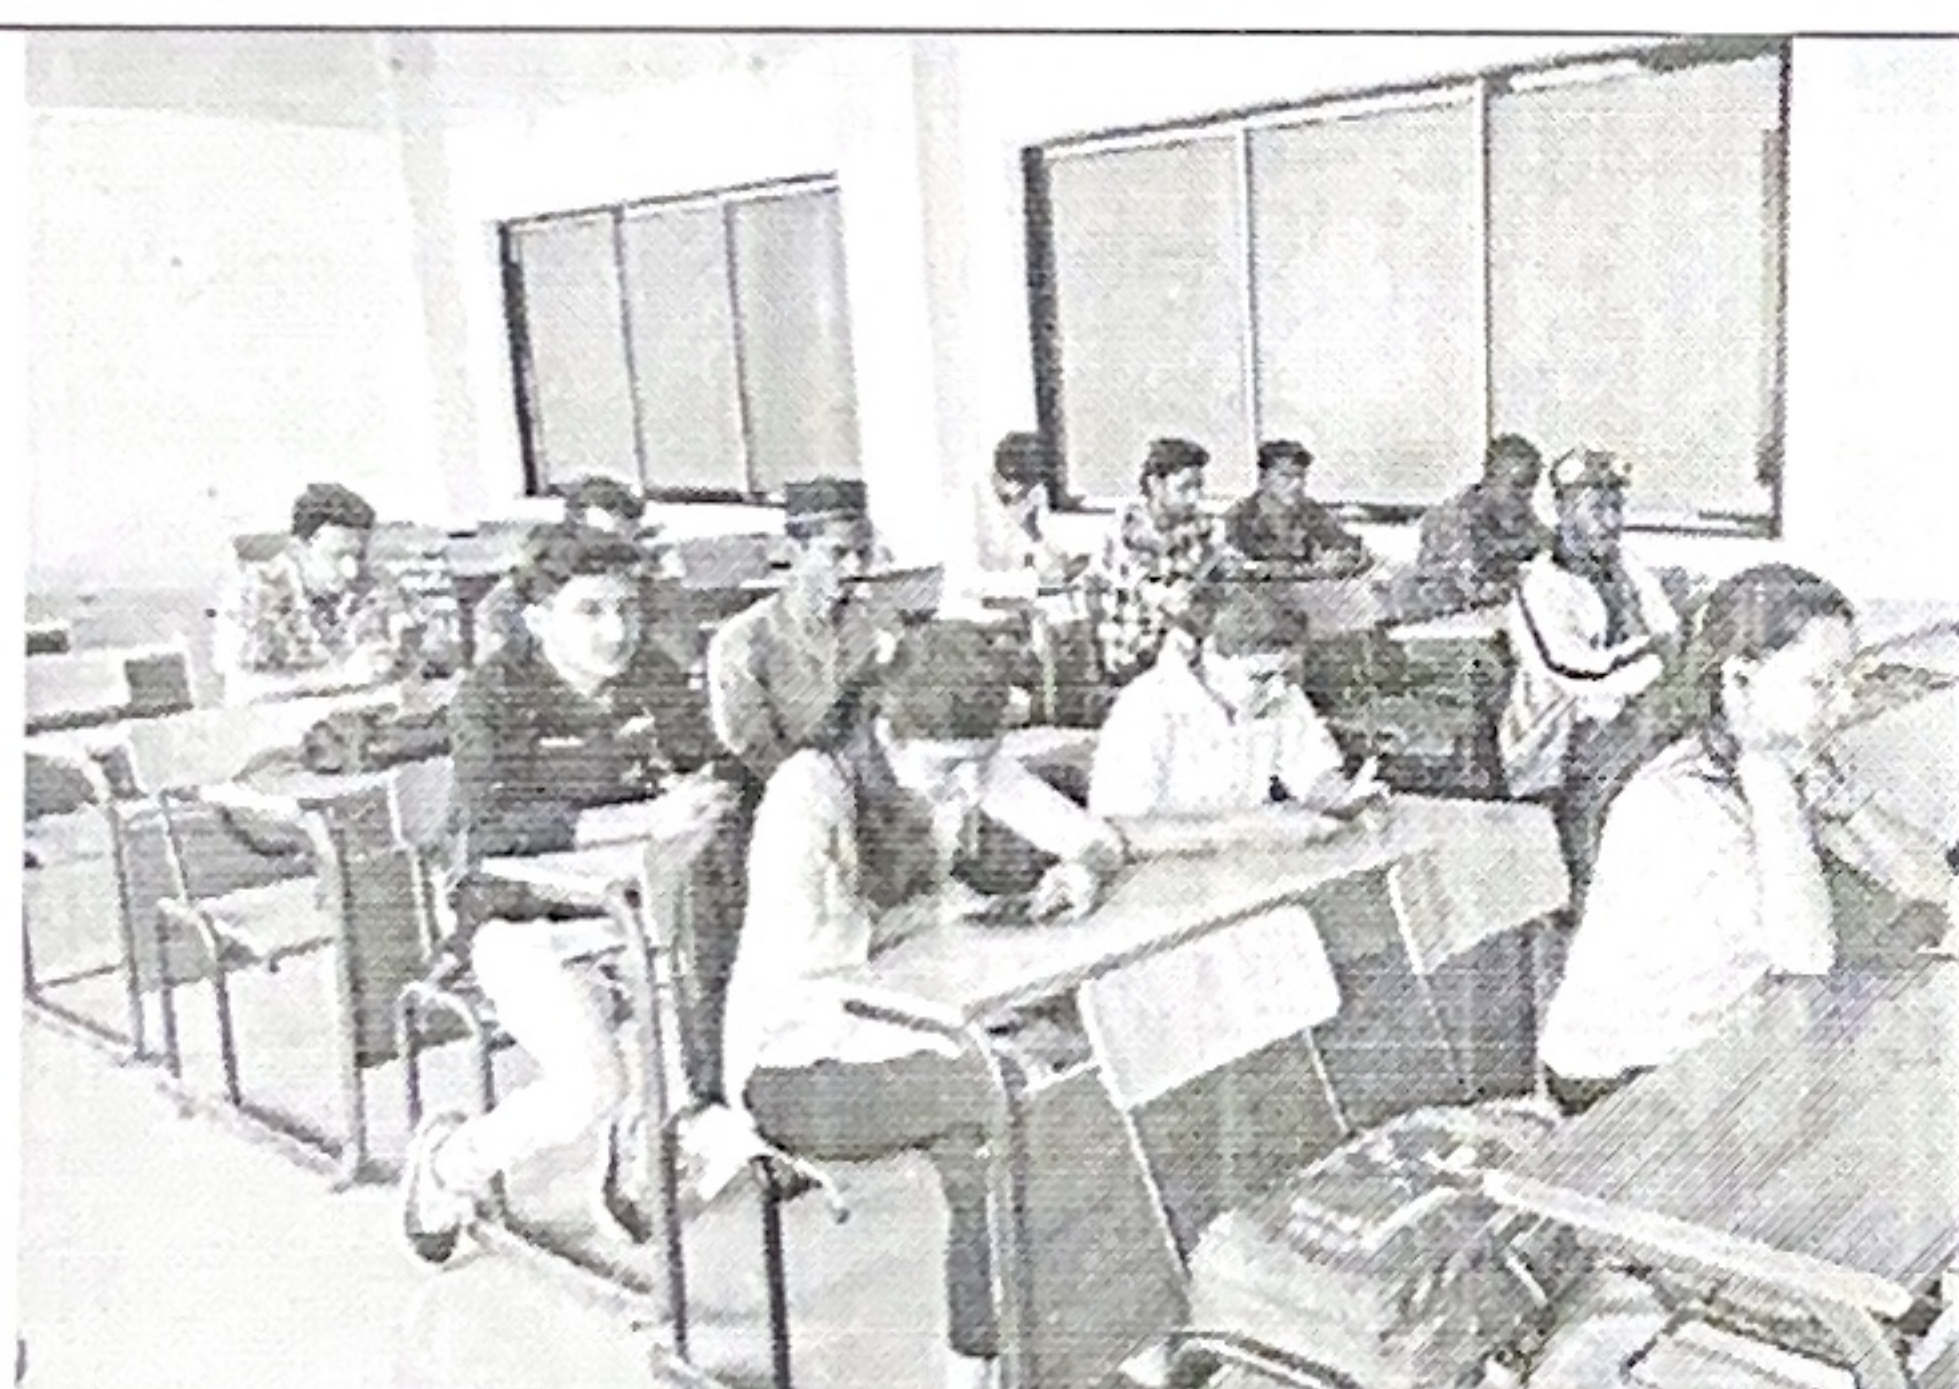

Sr. No.	Activity Details	Particulars
01	Name of the Activity:	Report on a Short-term Training Program "Six Sigma Yellow Belt"
02	Type of Activity (Seminar/Workshop/Expert Lecture or Talk etc.)	Expert Lecture
03	Nature of Activity (Curricular/Extracurricular/Social):	Recruitment and Soft skill Training
04	Level of Activity(College/State/National/International):	College
05	Objective/Aim of Activity:	<ol style="list-style-type: none">1. Introduce Six Sigma Principles: Provide a foundational understanding of the Six Sigma methodology and its core concepts.2. Develop Process Improvement Skills: Equip participants with the tools and techniques to identify and eliminate process inefficiencies.3. Enhance Analytical Abilities: Teach participants to use Six Sigma tools for data collection and analysis to support decision-making.4. Promote Team Collaboration: Encourage teamwork and collaboration to solve problems and improve processes.5. Prepare for Certification: Prepare participants to pass the Six Sigma Yellow Belt certification exam and apply the learned concepts in real-world scenarios.
06	Date/ Time Duration /Venue	12 th Feb – 17 th February, 2024/12:00 to 1:00pm – GGCM Classroom
07	Expert Name/Chief Guest(with designation)	Ms. Uzma Mohsin, Six Sigma Master Black Belt G.U.T.S
08	Other Guests (with designations):	Dr. JP Mishra (Dean, GCCM)
09	Faculty Present:	All the faculties of Faculty of Commerce & Mgt.

Brief

Introduction As businesses embrace the digital era, communication methods have shifted from traditional face-to-face interactions to digital platforms like email, video conferencing, and social media. Effective communication in this environment is essential for building relationships, increasing productivity, and fostering collaboration.

Understanding the Digital Communication Landscape The digital landscape includes real-time (video calls, live chats) and asynchronous (emails, recorded messages) communication, along with social media for branding. The challenges include managing information overload, ensuring digital literacy, and avoiding miscommunication.

Key Strategies for Effective Communication

Enhancing Digital Skills: Businesses need to train employees in using digital tools effectively, ensuring they adapt their communication style based on the platform.

Clarity and Conciseness: Clear, direct messaging is vital to avoid misinterpretation. Structuring communication with bullet points and simple language enhances readability.

Leveraging Collaboration Tools: Platforms like Microsoft Teams and Google Workspace facilitate real-time document sharing and project management, enabling effective remote collaboration.

Audience-Centric Communication: Tailor messaging to specific stakeholders, adjusting tone and style based on the audience (employees, customers, investors).

Cross-Cultural and Remote Communication: Ensure cultural sensitivity and use time-zone-friendly tools for global teams, promoting inclusivity and respect for diverse backgrounds.

Maintaining Digital Etiquette: Encourage professionalism in tone and timing of responses, while adhering to best practices for video meeting etiquette.

Using Analytics for Improvement: Use data to track engagement and measure the effectiveness of communication, allowing for data-driven adjustments.

Overcoming Digital Communication Challenges Key challenges include managing information overload, preventing miscommunication in text-based interactions, and addressing cybersecurity concerns.

Conclusion Adopting effective digital communication strategies is essential for businesses to thrive in the modern era. By leveraging the right tools and practices, businesses can foster clear, productive, and inclusive communication across teams and stakeholders.

Introduction:

On the 18th of March 2024, a stimulating seminar focused on the art and practice of critical thinking was held at Gokul Global University. The event brought together a diverse audience of students, educators, and professionals eager to enhance their analytical and decision-making skills. The seminar was organized by Gokul Science College and featured prominent speakers who delved into the significance of critical thinking in various fields.

Seminar Objective:

The primary goal of the seminar was to foster an understanding of critical thinking as a fundamental skill in addressing modern-day challenges. The event aimed to provide practical

tools and techniques for individuals to sharpen their reasoning abilities, question assumptions, and make informed decisions.

Key Highlights:

Opening Address: The seminar began with a welcoming speech by Ms. Nisha Prajapati, who emphasized the importance of critical thinking in both academic and professional settings. The speaker outlined how critical thinking fosters creativity, problem-solving, and logical reasoning in decision-making.

Defining Critical Thinking: Mr. Pradyumansinh Raj, a renowned expert in cognitive psychology, presented an engaging session on the foundations of critical thinking. He defined it as the ability to objectively evaluate information, question assumptions, and draw well-reasoned conclusions. He emphasized that critical thinking is not about criticism, but rather about understanding and challenging the validity of ideas.

Overcoming Cognitive Biases: A key segment of the seminar addressed the role of cognitive biases in decision-making. The speaker explained how biases such as confirmation bias, anchoring, and availability heuristics can distort rational thinking. Through interactive exercises, participants learned to recognize and mitigate these biases in their thought processes.

Critical Thinking in Real-World Applications: The session by Pradyumansinh Raj, a policy analyst, showcased the practical applications of critical thinking in solving real-world problems. He illustrated how critical thinking can be employed in fields like law, healthcare, business, and politics to make sound decisions. Case studies of recent global events were analysed to demonstrate the consequences of poor reasoning and decision-making.

Interactive Panel Discussion: The seminar concluded with a lively panel discussion where attendees had the opportunity to ask questions and share their perspectives. Panelists from diverse fields discussed how critical thinking has shaped their careers and personal growth. They encouraged participants to consistently challenge assumptions, seek evidence-based reasoning, and remain open to new perspectives.

Conclusion:

The seminar on critical thinking on 18th March 2024 was highly engaging and informative. Participants left with a clearer understanding of how critical thinking can transform the way they approach problems, make decisions, and contribute to society. The event succeeded in

equipping attendees with valuable insights and strategies to nurture their critical thinking abilities in both their personal and professional lives.

Feedback and Reflections:

The feedback from participants was overwhelmingly positive, with many expressing a desire for more such seminars. Several attendees remarked on the interactive nature of the sessions, appreciating the balance between theory and real-world examples. The event was a crucial reminder of the ongoing need for critical thinking in a world of increasing complexity and uncertainty.
